

# DEEP AWAKE TRAINING AND TRANSFORMATION PROGRAM

the training and transformation program will empower you to guide others to the deep awake state using soul-to-soul meditations, soul transmutation counselling and paralogical philosophy

on a one to one basis with people interested in awakening

as an addition to your current work skills

as a powerful aid to individual counselling

for one to one spiritual guidance

at local deep awake life groups

at introductory deep awake life events

working in the community with appropriate groups to bring connection and kindness where it is needed

you can use this training in a voluntary or professional capacity as appropriate

it is for everyone who wants to go deeper into the experience of awakening and to feel empowered to share their realisations with others ... whether they intend to speak publicly or simply communicate more clearly with friends and family

## INFORMATION AND TRANSFORMATION

this program offers advanced spiritual coaching in TIM's unique approach to awakening

it is beneficial that you have already attended a deep awakening retreat before beginning the training program

if this is impossible, however, it is not completely necessary, as long as you are familiar with TIM's books and videos

during the training TIM draw on his decades of experience to share with you what he has learned about how to effectively guide people to the deep awake state

this involves both imparting clear information ...

and also enabling you to undergo the personal transformation necessary for you to communicate authentically

at each seminar you will engage with practices to increase your competence and confidence as a deep awake guide

this takes time and repetition, so it is recommended to attend more than one training retreat if at all possible

## CERTIFICATION

seminars in this programme are offered regularly to deepen your ongoing process of training and transformation

after attending 2 seminars in this program you will receive a certificate affirming that you have gone through this process with TIM, which you can use as appropriate in your work

this training can contribute to CPD ... 'continuing professional development'

## MORE INFORMATION

you can watch a video of TIM explain his vision for the deep awake training and transformation program [here](#)

you can watch video testimonials of participants in the training describing their experiences of the deep awakening [here](#)

details of forthcoming training retreats [here](#)
